

Mobile skylight protection system **MOBI**

The MOBI mobile skylight fall-through protection from INNOTECH®, made from high-strength polypropylene, is used both as a fall-through protection system and also as a single anchor point for one person.

It ensures ideal safety, especially for clearance or maintenance work and is exceptionally practical and simple to use.

-  for the temporary protection of skylights
-  can additionally be used as an individual anchor point
-  simple and quick installation by means of holding straps
-  attached by a lashing strap to the skylight – causes no damage to the skylight
-  optimum for short-term work
-  certification to the latest state of the art:

In conformity of EN 1263-1
EN 795:2012 TYPE B
