

Guardrail system **LIMIT** 

The uncomplicated LIMIT solution by INNOTECH provides people who work at heights with perfect protection from potential sources of danger.

The flexible self-supporting guard rail system can be used in many ways. Installation takes just a few moments – without the use of special tools.

-  self-supporting guard rail system for working spaces and sources of danger
-  easy and quick installation
-  simple set-up (without special tools)
-  low self-supporting load due to post distance of **7.5 m**
-  great inherent stability
-  simple creation of openings due to the innovative chain holder
