

# ABS-LockSeal Extension Ø 42mm

Extension for Sealant Collars

## Extension (Ø 42mm) for ABS LockSeal sealant collars

Shrinking tube for posts with Ø 42mm. Available in 3 length, can be shortened to the required length.

Developed to extend our ABS LockSeal sealant collars - e.g. for use on inverted roofs. A heat source (e.g. a hot-air gun) is required to shrink the tubing.

- Extension for ABS LockSeal sealant collars
- for Ø 42mm Posts
- 3 length (300, 600 and 1200mm)
- can be shortened to required length
